

THE MORROWS IN ZAMBIA

God bless you all!

This is just a short update to show the progress of the orphanage. As you can see from the pictures on the left we cut all the tall grass down revealing a part of the orphanage. We found the ground to be hard to walk on so we completely removed the weeds, brush, etc. to do the landscaping. This was important as snakes and other creatures were living there for some time. Now that the ground has been leveled, a type of local grass called Carpet grass is being sown to fill in the area. This will not only beautify the grounds, but also keep the dirt and dust out of the rooms.

For security we are putting up a temporary grass wall around the property. Work on the roof of the orphanage is still being done. Next up is electricity lines being installed and door and window frames being constructed.
